

Eclectiv creates websites and design communications that help organizations achieve their business objectives.

OUR EXPERIENCE

Eclectiv has produced a growing list of business success stories that span a diversity of challenges, industries, and organizational types. Our experience includes work with Apple, Sony, Capital One, and Armani Exchange as well as with small businesses and non-profit organizations. Since inception, our work has won awards in such leading competitions as the W3 Awards, Davey Awards, and WebAwards.

SMALL-TEAM APPROACH

Eclectiv's team is comprised exclusively of senior-level professionals drawn from analytical, creative, and technical backgrounds. Our small-team approach enables us to create solutions with greater focus, shorter timeframes, and lower overhead costs than traditional design firms. We believe it's our commitment to this that has resulted in our longtime partners, repeat clients, and award-winning solutions.

PROJECT MANAGEMENT

We've been on time and on budget with every project we've undertaken. We deliver what we promise, when we promise. And we pride ourselves on being accessible to you at any time. To provide you greater efficiency and convenience, we also create a web-based project area that allows you to keep track of all tasks, schedules, and progress. You're always in the loop; we're always on the same page.

VALUES

Eclectiv is a relationship-driven business based on teamwork, respect, and integrity. We take on your objectives, challenges, and budget as they were our own. Everything we do is focused to achieve your objectives, and our extensive experience in design, marketing, and technology makes us a valuable partner and smart investment.
